

What's a "Telly Award"?

Hoods Woods Team, has been honored with over a DOZEN *Telly Awards* - the industrial video and film industry's most prestigious award. The Hoods talents as producers, combined with their encyclopedic wilderness skills and teaching abilities, have made these videos the worlds leading choice in wilderness video instruction.

Why Video?

Video instruction has been proven to be the most effective and least expensive way to learn. The proliferation of cooking shows and "Survival" shows have made this fact abundantly clear. The viewer is not required to read and then interpret some authors words. Instead you SEE and HEAR the instructions. Dimensions, angles, locations and quantities... everything you can imagine is right there before you. Even "In Person" instruction can't give you the level of detail our cameras can. Add to that the 40 years of teaching experience that goes into the videos and you have an unbeatable training combination that you and your family will enjoy for many years. One last fact. You never have to worry about being "Bored to tears" during our videos. All of our videos are as much fun to watch as they are informative. Humor is part of our educational philosophy.

Our videos are used by schools, libraries, scouts, military and police, search and rescue, families and individuals around the world.

What kind of quality will I see ?

Hoods Woods was a pioneer in the use of Digital Videography for instructional videos. We use the highest quality Digital Video cameras available, state-of-the-art non-linear editing systems and we duplicate on the best quality archival Quality DVD's we can find. All this to assure you of a clear picture and great audio that you can enjoy time and time again. Many of our customers report YEARS of viewing and showing. We do not use cheap cardboard "sleeves". Each DVD comes packaged in a black plastic library case so the media will have great protection throughout its long life.

(98 Min) DVD NOW \$19.95!!!

[Volume 9 - Primitive Knife Making \(TELLY AWARD WINNER!\)](#)

Ron Hood takes you to Arizona to meet two of the leading knife makers in the Neo-Tribal Metal smiths. Tai Goo and Tim Lively reveal the secrets of materials selection, forge building, tools, techniques and tempering so you can make your own terrific tools or blades at home or in the field. You will learn that you don't need electricity, power tools or boatloads of money to make beautiful, functional and durable knives or other metal pieces. You will see that you can build a forge in your own back yard and you don't need Thor's arms to hammer hot steel. This video is so good we've had several students start their own business after watching this video! It's all in the technique... Learn it here (95 Min) DVD NOW \$19.95!!!

[Volume 10—Survival Camping](#)

Ron and Karen Hood take you and 12 folks into Idaho's River-of-no-Return Wilderness for 8 days. What you will see is a graphic record of their experience. This video is a cross between "Jeremiah Johnson" and "Blazing Saddles". It is both enormously funny and incredibly instructional. You will see how to tell time by the North Star, build a wilderness sauna and make a primitive forge. See how to make and use Bannock, wilderness drills, body-bag hammocks, how to make use of rotting carcasses and how to fashion a fishing pole. You will learn how to prepare rawhide and tendons and trap game. There is so much in this video that it is impossible to explain it all. You will also learn how to prepare **your** pack for that time you want to test **Your** skills!

Caution: There are a few sections in this video that can be unsettling to sensitive viewers. You have seen worse on regular TV however. Do not drink liquids during the donut making sequence! (1 hour 58 min!) DVD NOW \$19.95!!!

[Volume 11 -SOLO: The Quest for Survival \(TELLY AWARD WINNER\)](#)

Follow Ron Hood as he travels deep into the mountains of Idaho for a two week test of his survival skills. During his adventure he is poisoned by bad food, attacked by a moose and finds that a forest fire has destroyed most of the forest. To top it off the summer weather quickly became a two week winter storm. With less than a pound of food for the two weeks and only a blanket and a tarp for shelter in the subfreezing temperatures you will learn how even a planned survival test can quickly become the "Real Thing." You will learn about energy conservation, insulation values, wilderness travel and priorities. You will see how to make a bone fish hook, make "cowboy coffee", hunt with a club, relax and much more. This trip was the "real thing" and it's a good thing that Hood follows his own advice to "Never Solo alone". He gives instructions on how to prepare for such an experience and a great review of the 18 pound pack that served his needs during the 14 days of survival living. Not only is this video filled with important survival skills it is a humorous and entertaining production. You will enjoy this video as you learn new skills and advanced techniques. (1 hour 58 min!) DVD NOW \$19.95!!!

[Volume 12 – Arid Lands Vehicle Survival \(TELLY AWARD WINNER\)](#)

Did you know that roughly 80% of survival situations begin when a vehicle becomes stuck or disabled? Get back "on-the-road" and the situation ends!

In this video we teach you many of the "tricks" for getting "unstuck, repaired" and rolling again. Learn vehicle extraction and repair gear recommendations for your Vehicle "survival kit." Learn about winches, high lift jacks and winching techniques and safety. This video covers Mirror, fire and improvised signaling techniques. Tire repair in the field. Getting unstuck in sand or dirt. Improvised winches and the "dead man" anchors. Improvised repairs for tires, radiators and more. As usual this video is also filled with many cool Woodsmaster tips and techniques. Even if you are just driving to a campsite ... these skills could save your life!! (over 90 minutes of instruction) DVD NOW \$19.95!!!

[Volume 13—Desert Survival \(TELLY AWARD WINNER\)](#)

Join Ron Hood as he takes you to the hot, dry, Moab Utah desert. Learn several different ways to find water in a Desert Environment. Does a solar still actually work and is it worth the effort? Is it a good idea to take your clothes off if you're too hot? Learn the tricks for making a "transpiration still" to get water—and learn if clear or black plastic is best to use and why. You might be surprised! Learn improvised sunglasses and sunscreen. Learn tricks to keep your body core temperature down, when to travel, and the difference in temperature between direct sun and "shade" sun and why this knowledge can help save your life. This video answers all these questions and more and it's filled with many signature Woodsmaster tips and techniques. This is a "must have" for your video collection! This video's a scorcher!! (over 90 minutes of instruction!) DVD NOW \$19.95!!!

[Volume 14—Crafts For The Field](#)

"**Crafts for the Field**" covers some of the skills we get asked about most. This video investigates the thermoplastic called Kydex and how to mold and use it. It shows you how to cover a Kydex sheath (one you already own or one you make following the video instructions) with leather to give the sheath that Woodsmaster look without losing the safety of Kydex. The video shows you how to make a small concealed carry holster from Kydex, how to make leather buttons, a ditty bag, and a special Woodsmaster fingerless glove. Along the way you will learn a bunch of special Woodsmaster tricks and techniques. The skills in this video can save you much more than the cost of the video AND give you the skills you need to make your own gear for the field. It's a stunner and fun to watch as well!! (1 hour and 45 minutes) DVD NOW \$19.95!!!

[Volume 15—Sticks, Stoves and Stitches](#)

Join Ron Hood and a couple of his friends in another informative volume of the Woodsmaster Video series. In this video you will learn how to make Buffalohide Moccasins close-up from beginning-to-end from Trapping and Hide expert, George Michaud. Learn how to make a pattern from a foot, learn the proper stitching techniques so you will not "walk off" the stitching once you begin to wear the mocs. Learn what materials to use and what a "glover's needle" is good for. Learn an improvised thimble and how to prepare the sole for your sandals as well as other intricacies that will help you to make extremely comfortable footwear from thick rawhide. The techniques you learn from George can apply to any leather-working from mocs to anything you want to make with rawhide.

Join Alan Halcon as he teaches you step-by-step how to make the Halcon Mini Alcohol Stove. This stove is made out of 2 aluminum cans and is so small it will fit into your back pocket. Also join Alan for his demonstration on how to make a long-lasting coal with the easy-and-fast-to-make Fire Drill. Of course this video is also filled with so many close-up tips and techniques for each of these skills that we just don't have room to list them here. (1 hour 20 minutes) DVD NOW \$19.95!!!

[Volume 16—Buffalo Butchers: Meat and Material from Large Game \(TELLY AWARD WINNER\)](#)

In this video, Ron Hood takes you to Salmon, Idaho to visit professional wilderness instructors Joe and Denyce Bigley (Aboman and Abowoman) of Salmon Outdoor School. With the help of a Lakota-Sioux, they harvest a Buffalo and show you the steps Native American's have taken to harvest, process and use almost every part of the animal.

Learn how to skin the animal starting at the back, how to butcher it using both stone and steel tools, how to preserve the brain for brain-tanning at a later date, how to remove and prepare tendons for sinew, how to prepare the stomachs for use as a cooking vessel (seen on Cave cooking Vol. 5). Additionally learn how to make an expedient stone tool for skinning and butchering... and much, much more. **This video shows graphic scenes.** (You have probably seen more graphic scenes on many nature programs on TV.)1 hr. 25 min. 28 chapters DVD NOW \$19.95!!!

[Volume 17—Buffalo Butchers: The Final Chapter \(TELLY AWARD WINNER\)](#)

The final video in the Buffalo Butchers saga is finished! In this video we look at more lithic arts, percussion, pecking and pressure flaking as well as tools and safety for the lithic process. We also show you how to make charcloth. Since we had the skin from the Buffalo processing we wanted to show the basics of hide tanning. Using some Buffalo skin, deer hide and an old badger hide we show a couple of tanning projects in a couple of ways. First we tan the hide of an animal harvested and salted over 20 years ago. Then we take a deer hide from its raw state through hide scraping, de-hairing, braining, grain breaking and finally to its finished smoked and pliable destiny. We also discuss tendons and how to prepare them for use and how to make a primitive pouch using leather "extras." We also look at blade "profiles."

The video is over 1 hour and 40 minutes. It's jam packed with information and much of it is presented by Hoodlum forum Posse members, wilderness experts and good friends, Joe and Denyce Bigley from Salmon Outdoor School at the Sacajawea center in Salmon, Idaho. 1 hr. 40 min. 17 chapters DVD NOW \$19.95!!!

[The BronzeMaster Series](#) [Why Bronze?](#)

When Karen and I talk about "survival" it is not just a concept related to the wilds. It covers every aspect of living from primitive to modern, from barter to economics. This video is related to barter and economics. When we produced the "Knife making" video we brought into existence a whole new generation of custom and private knife makers. There are literally dozens of people who now augment their income through metal working and knife making. Since then we have had many people request more videos on skills.

One of our customers wrote: "Your videos have taught me not only wilderness skills but also introduced me to the world of making knives which 6 years after watching Tai hammer out a knife, has become my career"

Bronze is one of the cornerstones of technology. Without it we would not be where we are. It is also an artists ultimate medium. Add to this the fact that it is beautiful, doable, durable and salable and we have a recipe for financial augmentation as well as a way to express an artistic bent and make everyday items. I told this story somewhere on our Hoodlums forum....

"When I returned from my first trip to Romania, Karen and I were enjoying one of the "art walks" we have here in Coeur D'Alene and I spied a bronze "life mask" (Some also call them death masks). I asked the artist how much he wanted for it ... "\$2,500 for this one and I can do your face for \$3,500".I walked away grumbling. Later when we walked past the booth again, the mask was gone, sold."

In these videos you will see how to make a lifemask. You will also learn how to make Bronze tools, build your foundry and much more. You do the math. If you can sell, if you can carve wax or clay into something artistic, you can make money with this skill. You can even do something simple like we have done, make bronze house numbers. You can cast bronze model cars or planes for collectors, make copies of antique items, decorative Bronze mirrors.... You figure it out...

[Volume 18—Bronze 1 "The Beginnings"](#)

Join Ron Hood as he travels to Romania on a quest for Bronze...Ancient metalworkers learned to manufacture bronze around a simple campfire. The skills they discovered and the techniques they uncovered are all explored as Ron takes you on a tour of Romania's historical artifacts and treasures. You will see the process as copies of some of these ancient artifacts are made for later casting into bronze.

In this DVD you will learn, up-close, the basics of modeling, copying, mold making, wax casting and aging of bronze. Watch Ron get his face cast into a bronze life mask from start to finish as well as enjoy a short tour of the beautiful Romanian countryside. Go on a search for an ancient fortress and see hands on access to ancient Bronze artifacts during our unprecedented access to the Romanian National History Museum displays. This DVD does not include instructions for constructing your own foundry. But it does teach you, up close, all about preparing objects using the "lost wax casting" of Bronze process. (1 hour and 45 minutes). DVD Now \$19.95!!!

[Volume 19—Bronze 2 "The Home Foundry"](#)

Ron teaches you how to build the foundry you need to start your own foundry business or hobby!
Topics covered: Setting up your home foundry. Intro to Sand casting. Setting up Foundry area. Safety precautions. Building a propane burner and how to test it. Precautions for burner. More about Hoods Video Productions... 10 years strong!

Hoods Woods started production of the **Woodsmaster videos** in 1995. Ron and Karen Hood had already helped develop another highly successful video series for a world famous magician. After learning the tricks of the trade (Both Magic and Video Production) the Hoods set off to showcase their own skills. Ron had been teaching fully accredited survival courses at two major Universities in California for over 20 years and has the teaching experience, presentation skills , historical sense and material to make the series the most complete in history. Karen has the camera skills and “eye” of the professional Videographer that makes the series what it is today. With state of the art Digital Editing systems, reasonable prices and incredible content, **Hoods Woods offers the best instructional videos! That is why we have received over a DOZEN coveted Telly awards for our productions!**

Hoods Woods videos have been featured on **Myth Busters, The David Letterman Show, Wild Ways TV, OLN's Outdoor Outtakes, Nickelodeon, PBS/Backpacker Magazine show : "Anyplace Wild"**. Ron was a consultant for Bear Grylls “**Man Vs. Wild**” and many other Discovery channel and major network shows.. Our videos have received glowing reviews in...
